……

SUMMARY

Detail-oriented problem solver with 350+ training hours and experience in Web development. Software Engineer with 5+ Years of IT Experience in Software Development and Software Quality/Testing on .NET technology. Knowledge of Agile techniques and scrum methodology. Expertise in Functional, Integration, Regression, and Database Testing. Good experience in testing Web applications and Client-Server applications. Expertise in product testing on validation of the end-to-end business process.

- Successfully managed complex projects with global implementation, and rapidly evolving requirements.
- Good team member understanding of wrap-around development and testing processes.
- Effective communication skills and record for coordination between globally located teams.
- Thorough Understanding of Software Development Life Cycle (SDLC), involved in various phases like Requirements, Analysis/Design, Development, and Testing.

……

TECHNICAL SKILLS

•	Languages	C#
•	Scripting Language	JavaScript
•	Markup Language	HTML, CSS, Bootstrap
•	Database	SQL Server 2005, 2008,2010, 2012
•	.Net Framework	ASP.NET 2.0, 3.5, MVVM, WinForms, WPF
•	Reporting Services	SQL Server Reporting Services 2008
•	Source Control	GIT & GITHUB , VSS, Star team
•	Testing	Functional, Integration, Regression, and Database Testing

……

Experience and Training:

Generation USA - Junior Web Developer Program | May 2022 - September 2022

- Participated in a 21-week Junior Web Developer program spending over 350 hours learning how web development works: from the fundamentals of JavaScript, programming fundamentals, developer tools, git, and problem-solving needed to be successful as a web developer.

PROJECT HISTORY

Project title: Cashier Session Manager (CSM 12.0, 11.0, 10.0)
Duration: July 2009 to April 2013.
Organization: Bally Technologies India Pvt. Ltd.
Role: Senior Developer & Functional Tester.
Technologies: C#, WPF, MVVM, SQL Server 2008, SSRS 2008.

R**esponsibilities:**

- Involved in requirement analysis and documenting the requirements.
- Successfully developed business modules by using Visual Studio 2010, WPF, C#
- Developed SQL Stored procedure for the modules to perform CURD operation and accessed through the data access layer.
- Build reusable business components with a high-efficiency coding standard.
- Performed functional and regression testing of the business components.
- Performed detailed test case design and executed test cases.
- Involved in UAT session and supported business users in performing end-to-end validation.

Project title: iView Manager
Duration: April 2008 to July 2009.
Organization: Bally Technologies India Pvt. Ltd.
Role: Developer.
Technologies: WinForms, C#, SQL Server 2005.

Responsibilities:

- Developed SQL Stored procedure for the modules to perform CURD operation and accessed through the data access layer.
- Build reusable business components with a high-efficiency coding standard.
- Developed and executed the unit testing scripts for the business components.
- Performed functional and regression testing of the business components.

Project title: MENUgistics
Duration: July 2007 to April 2008.
Organization: Omeon Solutions Pvt. Ltd.
Role: Developer.
Technologies: ASP.NET 2.0, C#, HTML, CSS, SQL Server 2005, Java script.

Responsibilities:

- Successfully developed models by creating web pages by using Visual Studio 2005, HTML, Javascript, C#
- Developed SQL Stored procedure for the modules to perform CURD operation and accessed through the data access layer.
- Build reusable business components with high-efficiency coding standards.
- Involved in developing Unit test cases for the Business components.
